

RAJKUMAR VISHWAKARMA

Full Stack Developer | PHP • Laravel • Python • Shopify • REST APIs

Indore, MP • +91-9111328903 • rajvishwakarma2021@gmail.com • [GitHub](#) • [Portfolio](#) • linkedin.com/in/rajkumar-vishwakarma

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 1+ year of professional experience building scalable web applications using PHP, Laravel, Python, and Shopify. Proven ability to deliver end-to-end solutions — from RESTful API design and MySQL database optimization to responsive frontend development with HTML5, CSS3, and JavaScript. Experienced on high-traffic, production-grade recharge and utility platforms with real-time transaction processing. Adept at e-commerce customization (Shopify/WordPress) and Git-based version-controlled workflows. Committed to clean, maintainable code that drives measurable business impact.

TECHNICAL SKILLS

Backend: PHP (OOP), Laravel, Python, Django, REST API Development, MVC Architecture

Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Design, Bootstrap, Tailwind CSS

E-Commerce & CMS: Shopify (Liquid, Theme Dev, App Integration), WordPress (Theme/Plugin Customization)

Database & Tools: MySQL, Query Optimization, Git, GitHub, Postman, VS Code, Linux CLI, cPanel

Concepts: Full Stack Development, Agile/Scrum, OOP, MVC, CRUD, API Integration, Data Structures

WORK EXPERIENCE

Junior Software Developer • **Recharge Trendd Setter Pvt. Ltd., Indore** | Sep 2025 – Present

- ▶ Architected and maintained backend modules for a live high-traffic recharge & utility platform processing 1,000+ daily transactions using PHP and Laravel MVC
- ▶ Reduced average API response time by ~30% via query optimization, eager loading, and Laravel caching (Redis/file cache) strategies
- ▶ Engineered and integrated 5+ third-party REST APIs (payment gateways, telecom recharge) with robust error handling, retry logic, and structured logging
- ▶ Customized 3 Shopify stores with UX-focused Liquid theme modifications — improving checkout flow and conversion rate
- ▶ Built responsive frontend interfaces (HTML5, CSS3, JavaScript) ensuring cross-device and cross-browser compatibility
- ▶ Established Git branching workflows (feature branches, PR reviews) reducing team code conflicts by 40%

Software Developer Trainee • **Recharge Trendd Setter Pvt. Ltd., Indore** | May 2025 – Sep 2025

- ▶ Developed backend logic for live recharge modules using Python and PHP, supporting real-time bill payment and mobile recharge workflows
- ▶ Diagnosed and resolved 20+ production bugs and bottlenecks, cutting critical error reports by 35%
- ▶ Redesigned 4 key UI pages using semantic HTML5/CSS3 — improved mobile responsiveness and reduced bounce rate
- ▶ Collaborated in Agile sprints — sprint planning, daily standups, and peer code reviews with senior developers

KEY PROJECTS

AI Voice Assistant | *Python, SpeechRecognition, NLTK, pyttsx3*

- ▶ Built a voice-controlled assistant supporting 15+ command types with NLTK NLP pipeline and 90%+ recognition accuracy

Personal Developer Portfolio | *HTML5, CSS3, JavaScript, GitHub Pages* [↗ Live](#)

- ▶ Deployed a fully responsive portfolio achieving 95+ Google Lighthouse score, showcasing live projects and technical skills

Recharge Platform UI Redesign | *PHP, Laravel, HTML5, CSS3, JavaScript*

- ▶ Led UI overhaul of the live platform — reduced page load time by 25% and improved user session duration via better UX

EDUCATION

MCA — Master of Computer Applications — *Shri Vaishnav Vidyapeeth Vishwavidyalaya, Indore* | 2023–2025 | GPA: 6.77

BCA — Bachelor of Computer Applications — *Barkatullah University, Bhopal* | 2020–2023 | 72%

12th & 10th — MP Board | 2018–2020 | 77% & 86%
