

AMAZON INTERVIEW FULL GUIDE

SELF INTRODUCTION

Hello sir/ma'am,

My name is Ram. I am a software developer with a strong interest in backend development and problem solving.

I have worked on projects like login systems and APIs using Python, Flask, and MySQL.

I implemented authentication, OTP verification, and database integration.

I enjoy solving DSA problems and improving my coding skills.

I am looking for an opportunity to grow as a software engineer.

CODING QUESTIONS WITH APPROACH

1. Two Sum

Use HashMap to store values and check complement.

Time: $O(n)$

2. Valid Parentheses

Use Stack to match brackets.

3. Maximum Subarray

Use Kadane's Algorithm.

4. Best Time to Buy & Sell Stock

Track minimum price.

5. Contains Duplicate

Use Set.

6. Longest Substring Without Repeating

Sliding Window.

7. Merge Intervals

Sort and merge overlapping intervals.

8. Number of Islands

Use DFS or BFS.

9. Reverse Linked List

Iterative pointer reversal.

10. Binary Tree Depth

Use DFS recursion.

11. Top K Frequent Elements

Use Heap.

12. 3Sum

Sort + Two pointers.

13. Product of Array Except Self

Prefix & Suffix.

14. Detect Cycle in Linked List

Floyd's Cycle.

15. Kth Largest Element

Heap.

----- BEHAVIORAL QUESTIONS & ANSWERS -----

Q: Tell me about a challenge

A: I faced issues in authentication system. I improved validation and testing which solved the issue.

Q: Team conflict

A: I listened to all members and chose the best approach collaboratively.

Q: Mistake

A: I made a validation mistake, fixed it, and learned importance of testing.

Q: Deadline pressure

A: I prioritized tasks and focused on critical features to meet deadline.

Q: Why Amazon

A: I admire Amazon's innovation and customer focus.

FINAL STRATEGY

Before Interview:

- Practice 10–15 coding questions
- Revise DSA patterns
- Prepare behavioral answers

During Interview:

- Speak your thoughts
- Stay calm
- Be honest

Extra Tips:

- Explain approach before coding
- Start brute force, then optimize
- Mention complexity
- Handle edge cases
